

WILDLIFE & HABITAT CONSULTATIONS

Have you ever wondered about the animals, plants, or natural features in your backyard?

Would you like to know more about nature's benefits or what is causing a certain natural phenomenon?

MIANUS RIVER GORGE (MRG) SCIENTISTS ARE AVAILABLE TO COME TO YOUR HOME AND ANSWER YOUR SPECIFIC QUESTIONS.

A team of MRG scientists will visit your property to answer your questions or concerns and offer advice on a variety of topics including: plant and animal identification; wildlife management; natural history; invasive species; woodland, field and pond management solutions; and more. (*One hour for FREE.*)

MRG's backyard habitat specialists also can provide a short, written management plan for your property that outlines strategies to attract birds; recommends native plantings to benefit butterflies and other pollinators; makes suggestions to manage the health of your trees, field or pond; details how to fix a problem area in your yard. (*Fee based on requested project.*)

MRG Wildlife & Habitat Consultations also offers the following services:

- **Rent a wildlife camera for two weeks** including a professional to install it. You'll receive a flash drive of all your camera photos and a short analysis of what was seen.
- **Survey the wildlife on your property.** MRG staff will survey songbirds, owls and/or amphibians on your property including a flash drive with the calls that you can use to help you identify individual species.
- **Create a beautiful stream or pond buffer.** Develop a plan for planting a beautiful - yet functional - buffer to help stabilize the banks of waterways or ponds on your property.
- **Protect your land for future generations.** Learn how a conservation easement on your property is a tax benefit and a benefit to natural areas.
